About **Tech2Globe**

Multi-Process IT Outsourcing Services & Solutions

Tech2Globe is an IT solutions and consultancy firm that assists visionaries in being industry changemakers and defining business future. We collaborate as one team with our clients with the common goal of achieving amazing achievements, outperforming the competition, and redefining industries. To offer better, faster, and more enduring results, we combine our specialized, integrated knowledge with our services. With over 14 years of experience in various industry verticals, we uncover new sources to add value to your business.

Experiences

7000+ SUCCESSFUL PROJECTS

300+ OUR STRENGTH

99% CUSTOMER SATISFACTION

25+ CUSTOMER BASED COUNTRIES

Why Tech2Globe?

WE CAN HELP YOU ACHIEVE MORE WITH LESS

By outsourcing to India, you can use your current staff to manage the outsourced team and projects, thereby increasing the output of each member (**~40 to 60% efficiency gain**).

ACCESS TO PROFESSIONALS WITH FASTER TURNAROUND TIME

You will be working with people who are highly educated, often holding degrees from some of the world's finest universities. These professionals promises faster turnaround with 24X7 Services.

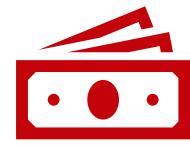

FOCUS ON CORE BUSINESS COMPETENCIES & BECOME MORE SCALABLE

Handling everything in-house may take your focus away from the core business activities. However, outsourcing to us can enable you to delegate noncore activities while you continue to manage the business functions that make you successful.

Why Tech2Globe?

WE OFFER BETTER PRICING FLEXIBILITY

USA labour is expensive, since the cost of living in the USA is high when compared to other countries. As an employer, you will be for paying for taxes, computers, cubicles, health insurance and liability insurance, in addition to each staff member's salary. When you outsource to us, you can cut down on the cost of labour drastically. The range for a skilled professional in the USA can be anywhere from \$50 to \$80 per hour, while the hourly cost of an experienced Tech2globe professional can be negotiated down, starts with, USD 25 per hours.

OUTSOURCING TO US IS EASY & HASSLE FREE

We have skilled people to transition your work to us with proper documentation such as “Process flow map” “Defined Metrics ” “Communication channel” “Contact parties” “Escalation Matrix” “Error definition” etc.

Value Proposition

SCALABILITY AND FLEXIBILITY:

We adapt to your business's growth and fluctuating demands, providing scalable solutions that evolve with you.

COMPREHENSIVE OUTSOURCING:

A wide range of outsourcing services, from data entry and customer support to digital marketing & software development & more.

CUTTING-EDGE TECHNOLOGY:

Leveraging the latest technologies and industry best practices, we deliver efficient and innovative solutions to meet your evolving business needs.

COST-EFFECTIVE SOLUTIONS:

Our cost-effective outsourcing services enable you to reduce operational expenses while maintaining high-quality results, ensuring a positive impact on your bottom line.

CLIENT-CENTRIC APPROACH:

Your success is our priority. We work collaboratively with you to understand your unique goals and challenges, tailoring our solutions to meet your specific requirements.

Message from CEO

I have found them very professional and the price is very attractive for me. As a small business owner, we can not hire a professional listing enhancer, EBC's and Image infographics. But when I was trying this Tech2globe third party service provider from amazon, I am amazed. The team including Mr. Shivam Sharma, they are friendly and very very professional. I was finished my project and truly I am very impressed with them. In future I will sure recommend my all business partner and others to join this TECH2Globe Team and take the huge benefits from them. Also I would like to suggest all new small business owner from Amazon, Please use the Professional service provider company like TECH2GLOBE, you will never loose your money. Thanks again Mr.Shivam Sharma and Team.

This is my very first time I availed service from Tech2Globe and amazed by the quality of service they have provided. I have been running my Amazon business over a year now and have worked with many service providers before. For the very first time, I realized that I have invested with a proper vendor with 100% worth of my money. I am definitely a returning customer for all my Amazon service needs and I highly recommend Tech2Globe to anyone who is hiring Storefront or EBC services for the first time. I am pretty sure they are great in other services as well that I am going to try now. Great job Tech2Globe-keep it up!!

★★★★★ Working with Tech 2 Globe for A+ Content

by craig de borba on Dec 29, 2021

Verified

I hired Tech 2 Globe Web Solutions for our EBC A+ Content. I already had an overall design so I needed them to work with the existing design and make it fit the modules available in Amazon. Working with Shavam was great. We did a initial call to start the project and their email responses were always quick. The pricing was also very reasonable. They implemented the modules for us and made the process very easy. I would work with them again.

Engagement Models

FIXED COST

In this engagement model, we guarantee a fixed budget for the project, regardless of the time and expense. The main advantage of a fixed price model is that it allows you to plan and set an exact budget.

MONTHLY SUBSCRIPTION

In this engagement model, we guarantee a fixed budget for the project, on a month-to-month basis. The main advantage of a fixed price model is that it allows you to plan and set an exact budget for long term projects.

HOURLY BASED

In this engagement model, we will get paid for the number of hours that we have worked, rather than being paid a fixed price for a specific deliverable.

FTE BASED

“FTE stands for “full-time employee”, where we will align 1 employee or more than 1 employees at your project depending upon your needs and workload.

Privacy & Security

NDA (NON-DISCLOSURE AGREEMENT)

We use legal documentation to keep our clients' details, information, and projects confidential. This ensures that no sensitive information is shared with external parties that can harm their business.

DATABASE BACKUP

Develop and implement data backup policies and procedures to ensure regular and secure backups of critical data.

DATA SECURITY & COMPLIANCES

We prioritize data security and compliance with industry standards, giving you peace of mind that your sensitive information is in safe hands. Safeguard data with encryption, access controls, and data classification to protect against unauthorized access or data breaches.

STRONG IT AUDIT

To ensure confidentiality and prevent data breaches, we strictly adhere to guidelines for our IT audits, regularly audit every employee's system, and restrict or disable external USB on every agent's PC.

INFRA (INFRASTRUCTURE SECURITY)

We follow a set of business standards and operational policies to function within a work-frame. Furthermore, we conduct regular quality testing and inspections to identify and rectify defects or issues.

QUALITY ANALYSIS/ENCRYPTION

Secure cloud resources with access controls, encryption, and regular audits.

OUR EMPLOYEE SIGNED NDA

We've taken proactive measures to safeguard our data by requiring all employees to sign Non-Disclosure Agreements (NDAs). These agreements are a cornerstone of our commitment to data security, ensuring that proprietary and sensitive information remains confidential.
